How to download your purchase

Dear parent, congratulations on your purchase of the Instant Baby Sleep sound track. You have taken the first step to putting your baby to sleep successfully.

To download your purchase, we recommend the following procedure:

- We strongly recommend that you first go to www.speedbit.com and download a copy of Download Accelerator Pro (DAP). It is a FREE download manager. This ensures that if you're on a slow internet connection, or your bandwidth is expensive, or you're in South Africa, you will get an error free download. *Most of the problems our clients have had with corrupted files are solved when they install DAP.*
- Then click on the following link or copy and paste it into your browser navigation bar:
http://dl.dropbox.com/u/5297512/Instant_baby_sleep_sound_track_v3.zip
- The file is **42Mb in size**
- The .ZIP file will reveal the following **content** after extraction:
 - Introduction sound clip (Introduction_listen first.MP3)
 - Implementation guide (Instant_baby_sleep_implementation_guide.PDF)
 - 60min. Instant Baby Sleep sound track (Instant_baby_sleep_sound_track.MP3)

Important note: The downloaded MP3 sound track should have a “shhhh-ing” sound. This “noise” is not a file error. The sound also resembles noise or a waterfall.

Copyright warning (please read carefully)

Please note that this MP3 sound track or any part of the Instant baby sleep tips may not be copied / duplicated or distributed in any form whatsoever. Copying this MP3 more than the allowed 2x times is theft. The Instant Baby Sleep sound track is protected under the copyright act law. The MP3 contains meta-data and a copyright mechanism that tracks the number of copies made. When more than 2 copies are made the MP3 will stop working and the Instant Baby Sleep team will be notified of breach resulting in court action. All legal costs will be for the account of the transgressor. A master rights penalty of \$150,000.00 USD will be payable. The person in breach will not be allowed to use the sound track ever again.

Finally, if you're not satisfied with your purchase, please send us an e-mail for assistance.

A refund may be requested on condition that you've thoroughly implemented the implementation guide and still feel that the product is not working. We are proud NOT to have received a single refund request up to date.
